

C8-M | Most Trustworthy Scan Tool Diagnostic Platform for Motorcycle

FCAR C8-M is the latest diagnostic platform developed for motorcycle. With various connecting cables, C8-M supports diagnosis for Yamaha, Suzuki, Honda, Kawasaki, Kymco, and Euro 4. The friendly UI and powerful system provide many functions like Read/Clear Fault Code, Actuation Test, CO Adjustment, Front Brake Bleeding, ISC RPM Control. The diagnostic tablet comes with much smaller size and more powerful specifications, delivering better user experience and smoother daily operation. C8-M is one of the most advanced and trustworthy motorcycle scan tools.

Yamaha

Suzuki

Honda

Kawasaki

Kymco

Euro 4
