

Injectors on vehicles are recommended to be cleaned and assure proper Injection of the fuel for a better homogenous mixture of the fuel and air.

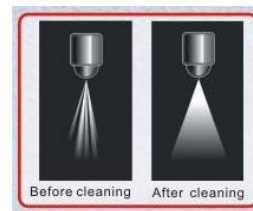

DaTo Injector cleaner comes along with Ultrasonic Cleaning tanks for better cleaning Efficiency and the bench assures perfect testing of the GDI / FSI Injectors and standard Manifolds Injectors

### Features

1. Ergonomic design and user friendly interface
2. Functions:  
Uniformity / spray test, Leakage test, Fuel flow test, Auto cleaning test, Inductance, Ultrasonic cleaning.
3. 19 Modes of uniformity test for GDI Injector, varying in pulse width, Rotation speed and Duty Ratio.
4. On Vehicle cleaning Optional ( need to purchase Optional on vehicle cleaning kit)

Model no: **DIGD 601**

Specifications:		
1	Input power	AC220V±10%~50/60Hz
2	Output power	250W
3	Injectors Serviced	GDI / FSI / Standard
4	Ultrasonic cleaner Output	50W
5	Test fluid tank capacity	4200 ml
6	Pressure Range	0 – 10 bar
7	Dimension	670 * 600 * 470mm (Pack) 510 * 355 * 450 mm (Unpacked)
