

CRP233

CRP239

CRP233 and CRP239 are advanced tools for the professional tech when it comes to vehicle diagnosis and repair. Both can diagnose and erase trouble codes, view live data for advanced systems like ABS, SRS, transmission and engine for most 1996 and newer vehicles, identify vehicle VIN automatically and upload the diagnostic report to the cloud. CRP239 has 6 more special functions like oil lamp reset, SAS reset, BMS reset, EPB reset, DPF regeneration and throttle adaptation.
