DIGC302 - PETROL INJECTOR SERVICE

Model No : DIGC302

DaTo, as one of the world's leading manufacturers and suppliers of professional diagnostic tools, equipment's and accessories in the automotive aftermarket, is committed to creating maximum long-term value for customers worldwide by providing quality-assured, easy to use, cost-effective and innovative products. DaTo DIGC302, as an advanced injector tester and cleaner specialized in V8 injectors with wide-range adaptors for national and imported car makes, is the ideal equipment for professional mechanics and auto repair stores to perform all-around cleaning and comprehensive tests on injectors and fuel supply system on most main vehicles.

Specification

Ultrasonic Cleaning	Yes
Uniformity/Spray-ability Test	Yes
Leakage Test	Yes
Injecting Flow Test	Yes
Auto Test	Yes
On-vehicle Cleaning	No
Structure	Desk
Cylinder	8
Adapter	Standard
Trolley	Optional

Features

- **Ultrasonic Cleaning:** To perform simultaneous cleaning on several injectors and to remove the carbon deposits on the injector completely.
- **Uniformity/Spray ability Test:** To test the uniformity of injecting amount of each injector, and to monitor the spraying status of each injector with the help of backlight. This test is also used for reverse flush.
- **Leakage Test:** To test the sealing and dribbling conditions of injectors under system pressure
- **Injecting Flow Test:** To check the injecting amount of the injector in 15 seconds of constant injection.
- **Automatic Test:** To test injectors by simulating different working conditions.
- **Complete Cleaning:** Adopting the powerful ultrasonic cleaning technology, The DaTo Injector Cleaner & Tester DIGC302 offers complete cleaning to the injectors.
- **Stable & Adjustable:** Fuel pressure control through microcomputer offers stable pressure control and large adjustable range, which is suitable for most vehicles and can help to achieve automatic cleaning and testing of injectors.
- **Automatic Cleaning/Testing/Monitoring:** With the help of microcomputer control and digital display, the equipment makes possible automatic cleaning, testing injectors and real-time monitoring of the dynamic values.
- **No Residue:** Automatic fuel draining through preset programs for some test items. Test liquid/detergent can also be drained by pushing a button on the control panel after the test.
- **Full-Range Adaptors:** DaTo DIGC302 comes with a full-range set of adaptors for national and imported car makes which comprises what any user would want to have.
- **User Friendly:** Adopting humanization design can make the system pressure fast restored to the default values.
- **Intuitive LED Display:** This injector cleaner tester equipped with LED display, high definition tube display, makes operation clear and easy.
- **Operate Simultaneously:** This can clean one or two injectors at the same time to remove carbon deposit completely
