

ACMAS902 - HEAVY DUTY A/C RECYCLING MACHINE

Model No : **ACMAS902**

It is designed and manufactured exactly according to the working principle of automobile air conditioners and common failure mechanism to diagnose automobile air conditioners and it integrates automobile services. 3PCT international patents have been applied, and it occupies the commanding heights of the automotive air-conditioning industry.

Specification

Input Power	Ac220V, 50/60Hz
Compressor Power	3/8HP
Average gas state refrigerant recovery	250g/min
Vaccum pump capacity	120L/min
Gas cylinder capacity	13.6kg
Accuracy of gas cylinder load cell	±10g
New/Used oil bottle load cell	250ml/400ml
Accuracy of UV bottle load cell	±5g
Dryer filter capacity	600ml
MAx Pressure	20bar
High Pressure gauge range	-1~ 30bar
Low pressure gauge range	-1 ~16bar
Charge speed	2kg/Min (max)
Flush time set range	10-60min
