

MCLD - MOBILE COLUMN LIFT

Model No : **MCLD**

DaTo Mobile Column lifts are most recommended to lift heavy duty / commercial vehicles, where in the per axle tonnage is higher. DaTo a prominent name in the mobile column lift sector caters to the requirement of hoisting the vehicles and is able to move in and move out freely after usage. The possibility of using the jack stands under the vehicles once raised by a mobile column lift shall benefit more in using the same sets of mobile column for lifting more number of vehicles with ease while the raised vehicles are supported by jack stands

Features

Parameters	MCLD415	MCLD418
