WEPW104 - PLASTIC WELDING MACHINE

Model No : **WEPW104**

DaTo WEPW104 is a custom made automotive equipment suitable for plastic and fiber panel repairing. It is an unavoidable part of any denting and body repair shops for minimizing cost and saving time. The tool provides easy fusion of blown plastic parts in all types of vehicles, boats, etc. It is a simple plug and use tool from normal wall socket which makes it more attractive. It comes with wire clips in different sizes for easy stitching of broken plastic pieces together and the heat and welding method increases the strength..

Specifications

Input Voltage	AC230V 50/60Hz
Input Current	1.5 A
Output Voltage	2.6 V
Output Current	5-30 A
Weight	4.8 Kg
Dimensions	250*180*135* mm
