

WESWX160 - DIGITAL SPOT WELDING MACHINE

Model No : **WESWX160**

WESWX160 with X-type and also C type gun is specifically designed for meeting the high requirements of the automotive industry. It is an advanced digital spot welding machine from DaTo with industry leading technology to its credit. It also comes with special functions to test the working of the spot welding gun in the form of inbuilt self-test mode function.

Specifications

| Parameter | WESWX160/WESWC160 |
|----------------------------|------------------------------|
| Input Voltage | 220V/380V |
| Carbon Rod Heating | AC 6V-10V |
| Washer Welding | AC 1V-12V |
| Double Sided Welding | AC 1V- 13V |
| Input Power | 22 KW |
| Instant Max. Current | 5800 A |
| Input Current | 57 A |
| Operational Way | Electronic Timer, Continuity |
| Single Side Weld Thickness | 1.0mm - 1.2mm |
| Time Regulation System | 0-99Ms |

Accessories

- X-TYPE or C type welding gun
- Earth Clamp
- Pneumatic Vacuum Hammer
- Pulling Hammer with Hook
- Dent Pulling Spot Hammer
- Pulling Claw
