

## **WATER BASED PAINT BOOTH PBBWF123**

### **Product description**

The PBBWF123 Paint booth is the standard design of a Water based Paint Booth delivered by DaTo. DaTo Tech Spray is durable and reliable and is equipped with Italian Burner. Installed with two blowers. In addition, its equipped with 3 accelerator blowers and channeled to the accelerating nozzles possible to turn 360 degree for increased air pressure. It delivers 30,000 m<sup>3</sup>/h of Air flow volume. The possibility of the Exhaust Blower enables the painter to have more wide angle spray over the vehicle without over spray due to high suctional force. Also enables healthy and good breathing habits for the Painter. In most cases you can deliver the car without a polish. Optimized for high speed Glossy Painting. The high air displacement requires high input power and assure the input power of the facility prior to procurement.

Paint booths have become quintessential equipment in Body shop. You can expect a dust-free operation while conducting a painting process. DaTo Paintbooth best durability and reliable service to our valuable customers and designed to meet the painting requirement for both solvent. The paints we deal with distinguish themselves as high performance, reliability, easy operation, and low power consumption. We are indeed a complete solution provider, delivering great expertise in the automotive industry.

### Product Specifications:

PARAMETER	PBBWF123
Overall Dimension (m)	7.0*5.3*3.5
Inner Dimension (m)	6.9*3.9*2.7
Drive Through Door Width (m)	3
Drive Through Door Height (m)	2.7
Steel Plate Thickness (mm)	0.426
Filtrated Area (m <sup>2</sup> )	20
Air Flow Volume (m <sup>3</sup> /h)	30000
Air Velocity within booth (m/s)	0.3~0.5
Ventilation Times (times/hr)	332
Working Temperature ( °C)	60~80
Power (KW)	25
Main Blower	Inlet 11.0 KW Europe Style Professional Blowers & Exhaust 11.0 KW Professional Blower
