LJCC2140 4T TWO POST CLEAR FLOOR LIFT

Model No: **LJCC2140**

LJCC2140 is a clear floor two post lift that adopts an electro-hydraulic power system, with a lifting capacity of 4T, suitable for sheet metal or machine repair and quick oil change stations

4.0T Lifting Capacity

Manual Dual-Sided Unlocking

Dual Hydraulic Cylinders

FEATURES

1. Lifting capacity of up to 4.0T, catering to common passenger car maintenance scenarios.
2. Adjustable tray with a minimum height of 100mm, suitable for low chassis and household vehicle models;
3. 120% dynamic and 150% static load testing compliant with CE standards;
4. Column width of 2780mm, suitable for large-width vehicles like commercial vans;
5. Full-travel mechanical safety locks, explosion-proof flow control valve, overload protection;
6. All movable points use automatic lubrication oil-free bearings, ensuring long-lasting durability,
7. Laser cutting and automated welding ensure reliable quality.

SPECIFICATION

Parameters

Power Supply	220/380V
Max Lifting Weight	4.0T
Max Lifting Height	1930mm
Min Lifting Height	100mm
Total Height	3740mm
Distance between Columns	2780mm
Lifting Time	«45S
Drive Mode	hydraulic drive
Machine Power	2.2kw
Hydraulic Oil	8Lwear-resistant hydraulic oil, provided by users
Hydraulic Power Unit	2.7ml/r
Work Environment	Temperature: 5-40°C Humidity: 30-95%
