

## DMSB4716 - METAL SANDBLASTING MACHINE

This machines are suitable for precision workpiece's surface treatment. It can make use of fine sand materials to blast. The sand materials can be recycled to use, and low sand materials consumption, little wear-tear of nozzle, low cost.

This machine is highly safe and secure for the sandblasting, with gauges and viewing high strength glass, the operation of machine is quite simple and elegant design.

### Specification

Item	
Working Pressure	0.4-0.7Mpa
Air consumption	2-3m <sup>3</sup> /min
Gun	1piece
Air source takeover pipe diameter	16mm
Voltage	220V/50Hz
Working cabin dimensions	985*985mm
Dimensions	1650*1000*1400mm
Net weight	220Kg

Art No :DMSB4716 : 008188
