

MEBRE101- BRAKE LINER RIVETTING MACHINE

The pneumatic riveting machine MEBRE101 allows to rivet and de-rivet the brake linings on every type of brake shoe. The heavy duty steel structure gives excellent qualities of strength and rigidity at the machine, while the combined hydraulic and pneumatic acting system assures an high working force using a low quantity of compressed air which is treated by a filter lubricator group complete of pressure regulator and an easy reading manometer.

CONFIGURATION

- Air pressure regulator with lubricator and manometer
- Set of extracting punches
- Set of riveting punches
- Chisel punch
- Set of counter
- Wrench set
- Instruction manual

Specification

Rivets diameter	3÷12 mm
Working pressure	6÷8 bar
Max punch force	5200 Kg
Max punch stroke	40 mm
Dimensions (L x W x H)	350x490x1520 mm
Weight	134 Kg
